

***1-Grid** | April 2018*

1-Grid is a leading South African internet hosting company with a 20-year track record of excellence and growth.

Marlow assisted in the buyout of 1-Grid, previously the hosting division of ISP Web Africa. Marlow acquired a minority shareholding in the Company alongside other strategic and technology industry investors. Through a greater focus on customer service, cost control and value added services, we look forward to leveraging 1-Grid's existing market leadership position for long-term growth.
